

Anatomy Pathways™ for VH Dissector™

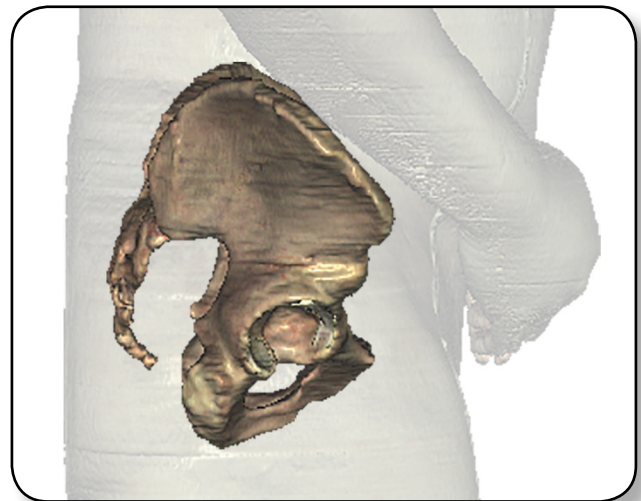

Pelvic Girdle & Lower Extremities

Identify the following structures in the images below.

(Some structures may be visible in more than one image.)

pubic symphysis • pubis • obturator foramen • acetabulum • patella • bony pelvis
sacrum • coccyx • inlet • outlet • hip bones • ilium • iliac crest • iliac spines
anterior superior spine • anterior inferior spine • posterior superior spine
posterior inferior spine • greater sciatic notch • ischium • ischial tuberosity

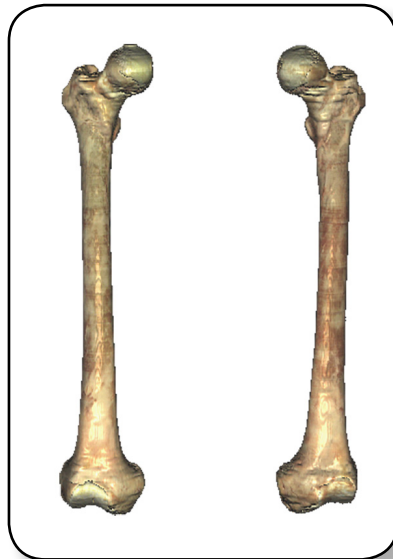

Pelvic Girdle & Lower Extremities

Identify the following structures in the images below.

(Some structures may be visible in more than one image.)

femur • head of femur • neck of femur • greater trochanter • lesser trochanter
shaft of femur • medial condyle of femur • lateral condyle of femur
medial epicondyle of femur • lateral epicondyles of femur • intercondylar fossa of femur
tibia • tibial tuberosity • lateral condyle of tibia • medial condyle of tibia
intercondylar eminence of tibia • medial malleolus • fibula • lateral malleolus
tarsal bones • medial cuneiform • intermediate cuneiform • lateral cuneiform
cuboid • navicular • talus • calcaneus • metatarsals • phalanges

What bones meet at the *sacroiliac joint*?
