

Anatomy Pathways™ for VH Dissector™

Vertebral Column

Identify the following structures in the images below.
(Some structures may be visible in more than one image.)

normal curves • cervical curve • thoracic curve • lumbar curve • sacral curve
atlas • axis • vertebral body • vertebral arch • pedicles • lamina • vertebral foramen
vertebral (spinal) canal • vertebral notches • intervertebral foramen • transverse processes
spinous process • superior articular facets • inferior articular facets • lateral masses
spinous processes • intervertebral discs • anulus fibrosus • nucleus pulposus
anterior and posterior arches • transverse process • vertebra prominens (CVII)
transverse foramen • superior articular facets • atlanto-occipital joints • coccyx

Vertebral Column

Identify the following structures in the images below.
(Some structures may be visible in more than one image.)

thoracic vertebrae • transverse processes • facets • demifacets
lumbar vertebrae • superior articular process • transverse lines
inferior articular processes • sacrum • sacral ala • sacral canal • sacral hiatus
sacral cornu • sacral promontory • anterior sacral foramina
