

Anatomy Pathways™ for VH Dissector™

Muscular System – Upper Extremity Muscles

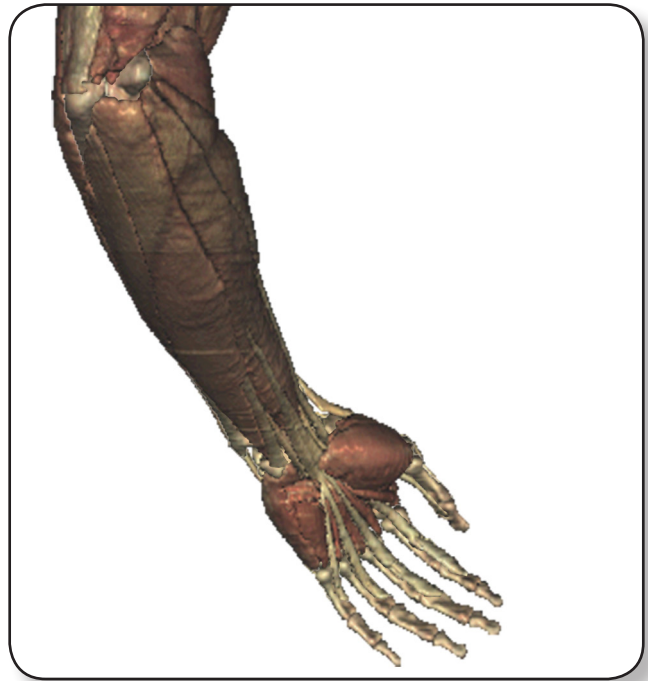

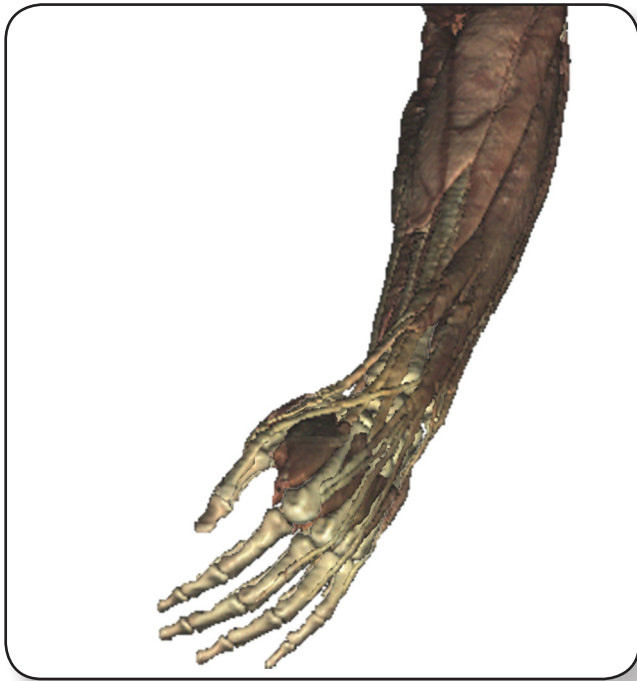

Identify the following structures in the images below.
(Some structures may be visible in more than one image.)

biceps brachii • coracobrachialis • brachioradialis • brachialis • triceps brachii
posterior forearm extensor • anterior forearm flexor • intrinsic hand muscles

Muscular System – Upper Extremity Muscles

Describe the location and collective function of each of the following muscle groups:

- Posterior (extensor) Forearm Compartment

- Anterior (flexor) Forearm Compartment

- Intrinsic Hand Muscles
